

FOREWORD

The Architects Registration Council of Nigeria (ARCON) derives the power to register and control the practice of Architecture in Nigeria from Architects (Registration, Etc) Act A19 The Laws of the Federation of Nigeria 2004.

Subject to the provisions of the Act, a person shall not prepare or take full responsibility for the erection or commissioning of architectural building plans or practise or carry on business other than that having relevance to ship construction, or to landscape golf-links under any name, style or title containing the word "architect" unless he is a Nigerian citizen and registered with the ARCON.

Pursuant to the above, ARCON has therefore decided to publish for the information of the general public a full list of all registered architects to guide the public in the choice of architects thereby safeguarding the society against the menace of quacks.

The list consists of the following categories:

- (A) Fully Registered Architects
- (B) Permitted Architects
- (C) Provisionally Registered Architects Stage II
- (D) Provisionally Registered Architects Stage I.

Fully registered Architects are those who can practise as Principals or Consultants to clients and can submit building plans for Planning and Bye-laws approval. They can be promoted beyond the level of Senior Architects if in paid employment in the public or private sector and are entitled to use the appellation 'Arc'.

Permitted Architects are non-Nigerian citizens who had set up practices as Consultant Architects before the promulgation of Decree 10 of 1969 and are still allowed to practise as Principals or Consultants. This permit is renewable at the end of each year. New members are not allowed in this list.

Provisionally registered Architects are entitled to use the title 'Architect' but can only practise under the supervision of a fully registered Architects and shall not act as Principals or Consultants in any private organisation. Provisionally registered architects are eligible for appointment in the civil service as Architect Grade 1 and not entitled to promotion beyond the grade of 'Senior Architect' in public or private institutions and are not to hold professional responsibility for any domestic building project exceeding two floors in height. These persons may be fully registered after obtaining the Certificate of Professional Competence on qualifying as an architect by examination conducted by the Nigerian Institute of Architects (NIA) and fulfilling any other conditions for registration as stated in this publication.

Under the provisional registration, the Council has created two stages. These are the Provisionally Registered Architects Stages I and II. The Provisionally Registered Architects Stage II are those with the approved professional qualifications. The Provisionally Registered Architects Stage I has now been created for the B.Sc. degree holder or its equivalent as terminal to graduates who are unable to proceed to a professional qualification.

The Council wishes to state that any person (Nigerian or Foreigner) whose name does not appear on this list and purports to practise as an Architect or uses the appellation 'Architect' in the public or private sector or practises as a partner in a consultancy firm is in contravention of the provisions of the Act and is liable on conviction to a fine or imprisonment or both.

The Council is deeply concerned about the non-payment of the annual subscriptions by registered architects despite series of reminders to that effect. Architects who have failed in this regard have violated one of the Council's regulation which makes it mandatory that the continued registration of an architect is dependent on annual payment of the pre-requisite fee. The Council therefore regrets that a number of Architects have had their names removed from the Register for failure to pay their annual subscription. This is in conformity with Sections 5(4)-(e), 7(6) to (7) of Cap.A19 Laws of the Federation of Nigeria as amended and other rules made in that behalf. Annual subscription shall be apid in advnce and shall become due on the 1st of January of each year.

The Register is updated from time to time as provided for in the Act. The public is encouraged to check the Register properly before engaging any Architect to ensure that they do not contravene any provisions of the Act.

It is however imperative to inform the public that only the names and particulars of Architects that have complied with the conditions set out in Section 5(4) - (d) of the enabling Act are published. The public may therefore wish to contact the Architects Registration Council of Nigeria Secretariat, if the need arises.

Enquiries for clarification of any part or parts of the contents of this document are welcome by the Architects Registration Council of Nigeria or visit our website www.arconigeria.org.ng for regular updates.

PROVISIONALLY REGISTERED ARCHITECTS STAGE TWO

In accordance with sections 5(3) (7) (i) of the Architects (Registration, Etc) Act A19 The Laws of the Federation of Nigeria 2004 the following persons are entitled to use the title Architect and can practise as such but may not act as Principals until they are fully registered. They can act as Architects to clients, submit plans for planning and Bye-law approval, only under the name and signature of Fully Registered Architects listed in part (A) of the register. Those who subsequently satisfy the provisions of the Act for full registration as Principals shall have their names transferred to part (A) of the register. Those in Government employment cannot be promoted beyond the post of Senior Architects.
